Under the name of SWISSCANTO (CH) ALTERNATIVE FUND, an umbrella fund has been established under Swiss law in the "special risk" category. As a fund of funds, each subfund invests primarily in foreign target funds which undertake alternative investments and use investment techniques, the risks of which are not comparable with those of conventional securities funds. These investments are generally known as hedge funds or non-traditional funds. The attention of investors is drawn specifically to the risks explained in the Prospectus. In particular, investors must be prepared to sustain significant price losses. The fund management company and the investment advisors will, however, make every effort to minimize these risks by the strict selection of target funds and a broad diversification of individual investment strategies.

Further information is available at www.swisscanto.ch.

Report on activities (unaudited)

Portfolio manager's report

For accounting year 2012 as at the end of October the SWISSCANTO (CH) ALTERNATIVE FUND – DIRECTIONAL achieved a marginally positive return both in gross terms and on a dollar basis. The net performance in CHF was slightly negative. The HFRX Equity Hedge Index USD recorded a small profit of 3.84% over the same period, while the HFRI Equity Hedge Index USD posted a 5.28% gain in value.

L/S equity strategies provided the lion's share of profits in the reporting period, while Managed Futures target funds also delivered a positive contribution, and event-driven strategies finished the year marginally above breakeven:

L/S equity: +0.68% Event driven: +0.09% Managed futures: +0.24%

At the end of the previous reporting period in October 2011, European and global strategies were still weighted most heavily, followed by US-focused managers and sector specialists. Towards the end of 2011, the focus was shifted primarily in favour of US strategies, and the weighting was expanded up to around one third. The strongest absolute performance was delivered by US strategies, which were the only long/short equity strategies to make a positive contribution and able to offset losses in other regions. US managers as well as global and sector funds generally had a rather constructive view of the markets, while against the backdrop of the EU crisis the European managers in the portfolio were positioned more cautiously, and Asia managers held mixed exposures. The market environment was treacherous and challenging for managers, as cautious risk management during corrections such as those in May called for a reduction in exposures, just when markets were seeing a turnaround – and vice versa. Although this observation does not apply to all managers it is representative for understanding the performance. Directional event-driven strategies contributed mostly positive performances. However, this performance was eroded by one Asia manager, which was then redeemed in the course of the year, owing to the difficulties. Managed futures ultimately achieved a positive attribution, thanks primarily to two strong months in May and July, and fulfilled their function as portfolio stabilizers.

Benchmark

The prospectus does not contain any details on the benchmark.

TER and PTR

The PTR was calculated in accordance with the "Guidelines on the Calculation and Disclosure of TER and PTR", which were issued by the Swiss Funds Association (SFA) on 16 May 2008.

Since no current TER is available from a proportional majority of the target funds in the case of the present hedge fund (fund of funds), no calculation of the TER can be made in accordance with the aforementioned SFA guidelines.

Explanation of footnotes

- 1) Rounded off or not according to the contract of fund current in the closing date
- 2) Purchases include among others the following transactions: purchases / bonus securities / conversions / changes of corporate name / splits / stock-/cash-dividends / demergers / transfers / exchanges between companies / allotments from subscription/option rights
- 3) Sales include among others the following transactions: sales / draws by lot / cancellations as a result of expiry / exercises of rights/options / conversions / reverse-splits / repayments / transfers / exchanges between companies
- 4) According to a communication issued by the Swiss Federal Tax Administration
- 5) As a percentage of net fund assets

Principles for valuing and calculating the net asset value

- 1. The net asset value of each subfund and the share of the individual classes (quotas) are each calculated in the unit of account of the corresponding subfund at the market value on the last bank working day of the month. On days on which the stock exchanges in a subfund's main investment countries are closed (e.g. on bank and stock exchange holidays), the valuation date of the subfund will be brought forward to the last banking day of the current month.
- 2. Investments traded on an exchange or other regulated market open to the public must be valued at the current prices paid on the primary market. Other assets or investments for which no current price is available must be valued at the price that would probably be obtained in a diligent sale at the time of valuation. In such cases, the fund management company will use appropriate and recognised valuation models and principles to determine the market value.
- 3. Open-ended collective investment schemes are valued at their redemption price or net asset value. If they are regularly traded on an exchange or other regulated market open to the public, the fund management company may value them in accordance with para. 2.
- 4. The value of money market instruments that are not traded on an exchange or other regulated market open to the public is determined as follows: the valuation price of such investments, based on the net acquisition price, shall be progressively adjusted to the redemption price whilst keeping the resulting investment return constant. If there are significant changes in the market conditions, the valuation principles for the individual investments will be adjusted in line with the new market returns. If there is no current market price in such instances, the calculations are as a rule based on the valuation of money market instruments with the same characteristics (quality and domicile of the issuer, issuing currency, term to maturity).
- 5. Bank deposits are valued on the basis of the amount due plus accrued interest. If there are significant changes in market conditions or credit ratings, the valuation principles for bank deposits on demand will be adjusted in line with the new circumstances.
- 6. The net asset value of a unit in a particular class of a subfund is obtained by calculating the share of that class in the market value of assets of such subfund attributable to the class, minus any liabilities of the subfund attributable to that unit class, and dividing the result by the number of units of that class in circulation. It will be rounded to the nearest 0.01 of the subfund's unit of account.
- 7. The shares in the market value of a subfund's net assets (assets of a subfund less liabilities) which are to be allocated to the individual unit classes will be determined on the basis of the portion accruing to the subfund in question for each unit class for the first time upon the initial issue of several unit classes (if this occurs simultaneously) or the initial issue of a further unit class. The share is recalculated when one of the following events occurs:
 - a) upon the issue and redemption of units;
 - b) on the pertinent date for distributions, provided (i) such distributions relate only to individual unit classes (distribution classes) or provided (ii) the distributions made by the various unit classes differ when expressed as a percentage of their respective net asset value or provided (iii) differing costs or commissions, calculated as a percentage of the distribution itself, are to be charged on the distributions of different unit classes;
 - c) when the net asset value is calculated, as part of the allocation of liabilities (including due or accrued costs and commissions) to the various unit classes, provided the liabilities of the various unit classes differ when expressed as a percentage of their respective net asset value, especially if (i) different commission rates are applied for the various unit classes or if (ii) class-specific costs are charged;
 - d) upon the calculation of the net asset value in connection with the allocation of earnings or capital gains to the various unit classes, if the earnings or capital gains result from transactions that were undertaken in the interests of only one unit class or of several unit classes, but not in proportion to their share of the net assets of a subfund.

Short form report of the audit company for collective investment schemes to the Board of Directors of the Fund Management Company on the financial statements of

SWISSCANTO (CH) ALTERNATIVE FUND

As audit company for collective investment schemes, we have audited the accompanying financial statements of the investment fund SWISSCANTO (CH) ALTERNATIVE FUND, with the subfunds

- SWISSCANTO (CH) ALTERNATIVE FUND DIVERSIFIED
- SWISSCANTO (CH) ALTERNATIVE FUND DIRECTIONAL

which comprise the statement of net assets and the income statement, the statement of the appropriation of available earnings and the disclosure of the total costs as well as the supplemental disclosures in accordance with article 89 paragraph 1 lit. b-h of the Swiss Collective Investment Schemes Act (CISA) for the financial year ended 31 October 2012.

Responsibility of the Fund Management Company's Board of Directors

The Board of Directors of the Fund Management Company is responsible for the preparation of the financial statements in accordance with the requirements of the Swiss Collective Investment Schemes Act, the related ordinances as well as the investment fund agreement and the prospectus. This responsibility includes designing, implementing and maintaining an internal control system relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Board of Directors of the Fund Management Company is further responsible for selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

Responsibility of the audit company for collective investment schemes

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Swiss law and Swiss Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control system relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the existence and effectiveness of the entity's internal control system. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements for the year ended 31 October 2012 comply with the Swiss Collective Investment Schemes Act, the related ordinances as well as the investment fund agreement and the prospectus.

Report on other legal requirements

We confirm that we meet the legal requirements on licensing according to the Auditor Oversight Act (AOA) and article 127 CISA as well as on independence (article 11 AOA) and that there are no circumstances incompatible with our independence.
